

## FACILITATOR PLANNING GUIDE

The goal of Cook to Learn is to host a fun night for families to create something *together*. Cook to Learn is also intended to provide families with simple tips and tricks to bring early math concepts into an everyday activity. You've picked your date, identified your space, and recruited families. Now what? Use this tool to plan a fun, interactive, and engaging event for the families you serve!

### CHOOSE YOUR RECIPE!

Sample recipes have been provided, however, please feel free to use this curriculum to create a recipe that's familiar to your community! Here are some things to consider when choosing your recipe:

- Keep it simple! Consider the age and abilities of your community.
- What cooking materials and resources are available to you (ex: oven, stove, refrigerator, etc.)?
- What are some simple recipes familiar to your community?
- Can the recipe be easily replicated at home (ex: are the ingredients affordable)?

COOK TO LEARN RECIPE: \_\_\_\_\_

### PLAN YOUR SHOPPING LIST
